Dear Sir:

To my dismay, I find that a serious error occurred in the Commissioner's Annual Report for 1952 which was mailed to you last week.

Table 1, Total Summary of Water Delivered, is incorrect in the following respects:

The figures for acre feet of water delivered and acre feet per acre for South Cache Water User's Assn. are incorrect. The monthly values and the total for the season should be the same as the Grand Total as shown in Table 2, Water Delivered by the South Cache Water User's Assn. The figure for acre feet per acre should be 3.68 instead of 5.45 as given.

Under Paradise Canal, the total figure and acre feet per acre are incorrect. They should be 11833 acre feet total and 6.57 acre feet per acre respectively.

The Totals at the bottom are also incorrect due to the errors mentioned.

A CORRECTED TABLE HAS BEEN MADE AND WILL BE FORWARDED TO YOU TO COMPLETELY REPLACE PAGE 3 IN THE REPORT.

I offer my sincere apology for not catching these errors before the report was printed and sent to you, and earnestly hope that a minimum of confusion has resulted because of the oversight.

The corrected table should reach you Tuesday or Wednesday of this week.

Respectfully yours,

Clyde A. Linder
